REPORT OF YOUR FOREST FIRE WARDEN

Everyone apparently fears fire but too many are careless with it. This is particularly true of fires in or near woodland. Official figures show that more than 98% of all forest fires results from human carelessness and can be prevented. Consequently we may say "Forest Fires are our most shameful waste."

Annual forest fire losses are tremendous and their effects are far reaching. Such fires destroy the raw products of the forest, the protection forest provides for game, and the supply of ground water. They upset the local economies by drawing men from gainful employment and requiring the expenditure of public funds to extinguish them.

Your local warden and his deputies are doing an excellent job in trying to prevent this shameful waste, but they must have the cooperation of the public and this means YOU. Remember there are laws that cover the making of a camp fire, also the burning of rubbish or debris, and also the burning of brush whether this is on your land or land of other people, and to disobey these laws can cost you a great deal of money. So please see your local warden and he will tell you how to burn the rubbish, also when you can burn it, and also issue you a permit to do so if conditions are right.

In the "Keep America Green" program there is a story of two bad boys who cause most of our forest fires. The first one we call "I don't care", he is the person that builds a fire anywhere, never gets a permit to burn brush, or has a safe place for his home incinerator. He also is very careless with matches and cigarettes. The other one is called "I don't know any better" and the best way to describe him is he is a plain dunce. It is only with your help that these two bad actors are controlled. Their carelessness can be the cause of our valuable woodland being destroyed by fire. Even your homes can be burned by their carelessness.

It is up to you and you to report these two characters to your local forest warden whenever you see them operating. Remember it is with your cooperation that this shameful waste of timber and money can be stopped.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Brookfield:

During the school year 1956-57 the Brookfield pupils were enrolled as follows:

	Total No.	Average Membership
Sanbornville Schools	9	7.6
Carpenter School, Wolfeboro	5	5.0
	<hr/>	<hr/>
	14	12.6
 Brewster Academy	 2	 1.1
Nute High School	2	2.0
Spaulding High School	2	1.3
	<hr/>	<hr/>
	6	4.4

Tuition rates were as follows:

Sanbornville Schools	\$210.00
Carpenter School	210.00
Brewster Academy	295.00
Nute High School	275.00
Spaulding High School	275.50

Enrollment for the current year is as follows:

Sanbornville Schools	7
Carpenter School	8
	<hr/>
	15
 Brewster Academy	 4
Nute High School	1
Spaulding High School	3
	<hr/>
	8

Tuition rates for 1957-58 are as follows:

Sanbornville Schools	\$200.00
Carpenter School	210.00
Brewster Academy	295.00
Nute High School	285.00
Spaulding High School	285.00

Average per pupil costs for 1956-57 were:

	Brookfield	State Avg.
Elementary	\$358.65	\$251.00
High School	281.14	410.00

The above comparison shows that the expenditure per elementary pupil exceeds that of the state average. The cost per pupil for the year 1955-56 was \$516.12. The cost per high school pupil is \$128.86 per pupil less than the state average. This is due largely because the state average cost includes transportation.

The tuition cost for the current year will exceed the amount appropriated by about \$1,200.00 due to a larger number of pupils than was anticipated at the time the budget was prepared.

Recently the school boards of Supervisory Union No. 36 began a study of the feasibility of forming a cooperative school district of the majority of the districts. This has been undertaken in view of the fact that several of the high schools which are attended by our pupils are crowded and there is no assurance that our boys and girls will be accepted as tuition pupils in the future. Such a cooperative organization may well offer important educational advantages to the children in this area. Reports of the study will be made to citizens of the school districts as progress is made.

The fine cooperation of the school board and citizens is gratefully acknowledged.

Respectfully submitted,

EVERETT H. BRASIER
